## Product Feature And Application

The history of stainless steel heavy duty pop line throwers can be traced back to the needs of the marine and marina sectors.

**The following is its rough development history:** Traditional Line Throwers: In the past, traditional line throwers were often used when ships were docked or at anchor. These rope throwers are usually made of iron or other materials, which are prone to rust and corrosion, and require manual fixation of the rope when in use.

**Introduction to stainless steel rope throwers:** With the advancement of steel technology, 316 Stainless Steel Heavy Pop up Cleat has begun to be widely used in ships and terminal equipment. Heavy Pop up Cleat is corrosion-resistant and durable, and has gradually replaced the rust-prone metal materials in traditional rope throwers.

**Application of pop-up design:** In order to improve the convenience and safety of the rope thrower, pop-up design began to be applied. 316 Stainless Steel Heavy Pop up Cleat design allows the rope to be easily attached to the casters and quickly released when needed.

**The advent of heavy-duty designs:** As ships and dock equipment continue to evolve, more powerful line throwers are needed to withstand higher pull forces and weights. The emergence of Pop up Cleat is to meet more demanding usage conditions and requirements.

At present, 316 Stainless Steel Heavy Pop up Cleat have become important equipment in the fields of ships and docks and are widely used in various types of ships and docks. Through continuous technological innovation and improvement, 316 Stainless Steel Heavy Pop up Cleat can provide a more reliable, safe and convenient use experience.

## Product Details

The 316 Stainless Steel Heavy Pop up Cleat is a high-strength, corrosion-resistant line thrower for boats and docks.

It has the following product features:

### **Shandong Power Industry and Trade Co., Ltd.**

**Address:** Chengyang District, Qingdao, Shandong Province, China

**Tel:** [+86-15865772126](tel:+86-15865772126)

[+86-0532-83875707](tel:+86-0532-83875707)

**E-mail:** [andy@hardwaremarine.com](mailto:andy@hardwaremarine.com)

**High-quality material:** This product is made of stainless steel, which is corrosion-resistant and durable. It will not rust or corrode when used in harsh marine environments.

**HIGH STRENGTH:** This rope thrower has a heavy-duty design that can withstand a lot of pulling force and weight, ensuring that boats and ropes are securely secured.

**Pop-up function:** This rope thrower features a pop-up design that allows you to easily secure the rope to the rope thrower and enable quick release when needed.

**Easy to install :** 316 Stainless Steel Heavy Pop up Cleat can be quickly installed on your boat or dock.

**Versatile Use:** This rope thrower is suitable for use on a variety of boats, docks and docks. This product can be used easily whether the boat is docked, moored or temporarily docked.

In summary, the stainless steel heavy-duty pop-up rope thrower is corrosion-resistant, high-strength, easy to install and versatile in use, making it an ideal choice for securing ropes on boats and docks.

## **Loading & Shipment**

Thanks to superior quality, we have been establishing a close & long business partner relationship with the customers from more than 30 countries, and we've gotten so many positive feedback regarding the quality.
